

## Frozen Doggie Pupsicles

12" length of steel chain

1 Carabiner

Empty cardboard milk container with top cut off or one quart plastic yogurt container

### Suggestions:

Low sodium chicken broth with mashed carrots and peas

Sliced bananas, drops of peanut butter, all natural/no sugar apple juice with yogurt drops

Cubed watermelon, sliced strawberries, all natural/no sugar pineapple juice with yogurt drops

Pick your dog's favorite combo and put it in the cleaned out container. Fill just below the top with water. Attach carabiner to the length of chain. Put chain into the container with the carabiner hanging over the side. Freeze. Once frozen, remove from freezer and run sides of container under warm water until it slides out. If using cardboard milk container, just peel off sides. Hang outside using carabiner for a yummy summer treat!

Feel free to experiment!!!
